Drug Free Communities - National Coalition Academy Work

2526 Prevention Grant Strategy Planning

Katie reviewed the new application to the state for our next grant cycle. Katie and Shannon gave an update on the suicide sub-committee's meeting and the plans for support groups for survivors of suicide loss and partnering with NAMI.

New this year is having an "authorized coalition member" sign a certificate of collaboration to demonstrate the involvement of the coalition in the development of this work plan. Ray volunteered to take on that role and was unanimously approved and thanked by all present.

The first draft of our application is to be submitted to the state by April 30th. Katie will be sending out virtual meeting dates for different focus areas, anyone is welcome to participate in any topic that is of interest to them. They will be set up like office hours for flexibility.

NEXT FULL COALITION MEETING: May 17th: 11:30a - 1:30p

Meeting ended at 1:00 pm.

Respectfully submitted by Katie Allen, Prevention Specialist
